

Cutting Edge

Technology at the Forefront

15 years of experience supporting the NSA Mission

AHP Global Enterprises, LLC is a woman-owned small business that supports the Department of Defense (DoD) customers specializing in Data Streaming and Cloud Analytic Solutions. AHP Global Enterprises LLC. has an established track record of providing solutions that are highly reliable, superbly scalable, high performing and durable.

Unlike other small companies, our 15 years of working closely with Stakeholders in the Intelligence Community has allowed us to be in the forefront of delivering impactful and timely solutions to decision makers in a world of rapidly evolving technical challenges. AHP is always on the cutting edge, analyzing streaming analytics technology and network security encryption by integrating the most cutting-edge commercial technology solutions to solve the streaming analytic and cyber security problems of the Intelligence Community and More.
